

	INTEGRATED MANAGEMENT SYSTEM POLICY	Document No.	PL.00
		Publication Date	28.09.2022
		Revision No	00
		Revision Date	-

As TTS;

- ✓ We will implement an effective Integrated Management System by raising awareness of our personnel to cover all our activities. We will continue our activities in full compliance with the Integrated Management System ISO 9001, ISO 27001 (Integrated Management System) standards and by fulfilling all the requirements of these standards.
- ✓ We undertake to fulfill the applicable obligations and to show the necessary dedication to continuous improvement in order to increase the performance of the system you have established, and we aim to ensure continuous customer satisfaction by providing products and services that meet customer tastes and demands within the framework.
- ✓ We will act by being aware of the internal and external aspects of our company.
- ✓ We will determine our company's Objectives, Quality and Information Security targets and continue our business processes in line with these targets.
- ✓ We will comply with environmental legislation, administrative regulations and sectoral obligations, ensure efficient use of natural resources, pay attention to environmental protection and bring positive values to the environment.
- ✓ We will comply with occupational health and safety legislation and regulations, create a healthy and safe working environment, prevent occupational accidents and occupational diseases, reach the highest level of world standards in this field and make it sustainable.
